SAUMY TIWARI
SOFTWARE ENGINEER

Profile

Software engineer specializing in C++, Python, React, Node js. Committed to problem solving focusing on real world problems. Always attempting to be a versatile and open for learning. Developed and deployed real world projects such as learning management system and ai based resume scanner.

Projects

Online learning management system

- Built a comprehensive LMS featuring user registration, course enrollment, and an interactive quiz module.
- Created an automated quiz grading system with a dynamic progress tracking dashboard, allowing users to monitor their performance in real-time.

AI Resume scanner

- Developed a real-time AI-Powered resume scanner with Flask backend and HTML, JavaScript to check job eligibility for specific roles.
- The core of the application was a RESTful API endpoint that securely processes resume data and sends it to the **GEMINI API** for a detailed, AI-driven analysis.
